REMARKS

Claim 7 has been amended in response to the examiner's objections, as has claim 17. Claim 15 is represented in independent form, and is believed allowable based upon the examiner's prior statement.

Claim 7 has been amended to make clear that the indoor unit is one of a furnace and a heater/fan combination, and the outdoor unit is done of an air conditioner and a heat pump. The prior patent to Turner, et al. is essentially a climate control system for an automobile. The examiner appears to be pointing to temperature sensors to meet the "indoor" and "outdoor" unit limitations. However, Turner, et al. cannot meet claim 7 as amended.

For the reasons set forth above, all claims are allowable. An indication of such is solicited.

Respectfully submitted,

Theodore W. Olds, Reg. No. 33,080
Carlson, Gaskey & Olds
400 W. Maple Road, Ste. 350
Birmingham, MI 48009
(248) 988-8360

Dated: March 23, 2007

CERTIFICATE OF TRANSMISSION UNDER 37 CFR 1.8

I hereby certify that this correspondence is being facsimile transmitted to the United States patent and Trademark Office, fax number (703) 872-9306, on March 23, 2007.
